A WORD FROM THE PRESIDENT

Dear readers,

the year 2014 was full of very intensive work for the whole team of the AVPO. All the three workers of the office - the president, the director and the consultant and analyst - had to meet the goals set by two important EU funded projects. It was also necessary to carry out other tasks related to operation of the Association - such as watching new legal regulations and advocating the interests of public benefit organizations within these regulations, dealing with the issues of member organizations, organising special events for members, meeting obligations connected with the membership in Czech and international networks or working on the assessment of civil society development for the American agency USAID.

The year 2014 brought a start of the seal of reliability which is the first important self-regulation tool in Czech non-profit sector. Financial support of Human Recourses and Employment OP and cooperation with workers of Ministry of Labour and Social Affairs who administer this programme enabled us to announce first seven holders of the seal "Reliable public benefit organization" on the website www.znacka-spolehlivosti.cz, following the finished methodology.

All other details are to be found in this annual report.

I already know at this point (as I am writing this preface in May 2015) that the upcoming year will not bring less hard work. The seal is now going to be funded by private and own resources, not from public resources anymore. I also believe there will be more space to take care of the member organizations which were lately a little neglected due to all project goals we had.

In closing I would like to express my gratitude to all our members, sympathizers and supporters. Any support brings us hope for the future. A special thanks goes to Marek Dziub from the company Friends' factory and my two colleagues - Alena Sladká and Aleš Mrázek. It is a blessing to work with people who love and enjoy their job.

Marek Šedivý

AVPO CR president

AVPO CR NETWORKING

▪ ENNA (The European Network of National Civil Society Associations)

Since September 2011 the AVPO CR has been representing the Czech Republic in the ENNA (The European Network of National Civil Society Associations).

Based in Brussels, the ENNA is an association of umbrella organizations from EU member countries. Its aim is to enable communication between the representatives of the non-profit sector of individual European states and to mediate access to information for instance from the areas of law, subsidies and tax policy, and about the 'best practice' in EU countries. The AVPO president is a member of its board of directors responsible for the area of fundraising.

▪ Union of Employers' Associations Czech Republic (Unie zaměstnavatelských svazů - UZS)

In October 2013 AVPO ČR became a member of the UZS which is a membership organization of the Confederation of Employers' and Entrepreneurs' Associations. The UZS unites and represents more than 7 000 organizations with over 700 000 employees. Within the purview of the UZS and more than 600 NGOs there has been created a platform which has pretensions to represent the non-profit sector at the highest level. It is becoming the biggest platform for NGOs, unique by its structure. The president of the AVPO ČR Mr. Marek Šedivý was elected a vice-president for the section of non-governmental and non-profit sector.

▪ International Committee on Fundraising Organizations (ICFO)

Since 1958 the ICFO has been uniting organizations engaged in evaluation of NGOs' management of money coming from private donors. The aim of the ICFO is to inform donors about how transparent and adequately the money is used to support NGO's public benefit activities and services. There are 16 subjects from 15 countries worldwide integrated into the ICFO up to the present. In October 2013 the AVPO ČR became an affiliated member of the Committee and since then it has been putting the experience of other member organizations into effect while creating and implementing methodology of credibility evaluation of NGOs in the Czech Republic.

PROJECTS

Project 'Financial stability of non-profit organization - key of its sustainability' Project

Period of realization: July 1, 2013 – December 31, 2014

Supported by a grant from the EU Funds (OPPA)

Evropský sociální fond
Praha & EU: Investujeme do vaší budoucnosti

In 2014, AVPO ČR continued with a project focused on strengthening steadiness and development of five Prague member organizations (Hestia, Lata - Programmes for youth, Maturus, Neziskovky.cz, Pohoda - organization for normal life of handicapped people) and AVPO ČR itself, aiming to support financial self-sufficiency of participating organizations.

Financial support coming from OPFA fund enabled organizations to create and implement a fundraising plan. AVPO ČR used the resources to partly cover the pay of fundraisers of participating members. This allowed them to fully focus on their work - raising funds for further development of organization. The emphasis was put on developing individual and corporate fundraising, given decreasing support from public resources.

Therefore, fundraisers and managers of NGOs attended a workshop with lecturer Mrs. Olga Medlíková in winter 2014, focused on the topic of organization culture, followed by a discussion with Mr. Jiří Jemelka, on How to improve negotiating and sale skills of fundraisers. Mr. Jemelka is a marketing specialist and expert on business development and author of a book "Sale - hard work or fun" which was given to participating fundraisers as a pre-Christmas present.

Project 'Way to increase credibility of NGOs: Introduction of a credibility evaluation system of NGOs in the Czech Republic' Project

Period of realization: September 1, 2013 – June 30, 2015

Supported by a grant from the EU Funds (OPLZZ)

In 2014, AVPO ČR continued working on a project aiming to strengthen transparency and reliability of non-governmental non-profit civil society organizations (CSO) in the Czech Republic through a system of CSO reliability evaluation.

Created methodology was tested in two trial evaluations in cooperation with member organizations of AVPO ČR. These evaluations were provided free of charge. Organizations which underwent evaluation successfully got a seal "Reliable public benefit organization", so called Seal of reliability. This seal is given by an independent Board for evaluation of public benefit organizations reliability, consisting of nine representatives of business, academic and non-profit sector, public administration, auditor companies and media.

Ten member organizations joined the trial evaluation in 2014. Seven of them (Dejme dětem šanci, o.p.s., Helppest - Centre for assistance dog training, o.p.s., Lata - programmes for youth, MATURUS, o.p.s., Na počátku, o.p.s., Nadační fond J&T, Pestrá společnost, o.p.s.) became holders of the Seal of reliability in September. Other twelve members joined the second trial evaluation in the autumn, their evaluation will be finished in 2015.

List of the Seal of reliability holders as well as a complete methodology of evaluation and further information can be found on www.znacka-spolehlivosti.cz.

There were two courses organised to introduce the reliability evaluation and its methodology in detail as it is a new issue in the Czech Republic. The courses took place in Prague in January and October, with 33 participating representatives of non-profit organizations. In October, the representatives of the first Seal of reliability holders joined the workshop on using the Seal of reliability for fundraising and PR purposes.

In May, as a member organization the AVPO ČR took part in general meeting of ICFO and one-day conference "The changing generosity landscape: which challenges for the monitoring?". There was a presentation of methodology for reliability evaluation of international non-profit organizations (e.g. development cooperation NGOs) at the conference. The AVPO ČR could present the Czech version of evaluation to other members. Among others, representatives from Lithuania, China, Taiwan, Mexico or Japan shared their experience with implementation of evaluation systems. At this occasion the strategic planning of ICFO also took place, together with discussions on issues related to member organizations experience with evaluation and their way to solve these.

Project: The Civil Society Organization Sustainability Index (CSOSI)

Period of realization: every year evaluation

Supported by USAID

The Civil Society Organization Sustainability Index (CSOSI) is a key analytical tool that measures the progress of the civil sector in the Central and Eastern Europe and Eurasia (E&E)

region. The Index tracks the progress of the civil sector in twenty-nine countries over the past eighteen years. The Index examines the overall enabling environment for civil society, focusing on NGO's legal environment, organizational capacity, financial viability, advocacy, service provision, infrastructure, and public image. Each dimension is rated along a seven-point scale with 1 indicating a very advanced level and 7 indicating a low-level of development. The Index is developed by the U.S. Agency for International Development in partnership with local organizations in each of the Index countries.

AVPO ČR is a partner of the USAID for the Czech Republic, it organizes assessments based on American methodology, processes and summarizes the assessments outputs in final reports (in Czech and English).

The English version of the 2014 CSO Sustainability Index for Central and Eastern Europe and Eurasia can be found by visiting the link: <http://www.usaid.gov/europe-eurasia-civil-society>

Odpovědnost statutárního orgánu účetní jednotky za účetní závěrku

Statutární orgán organizace Asociace veřejně prospěšných organizací ČR, z.s. je odpovědný za sestavení účetní závěrky, která podává věrný a poctivý obraz v souladu s českými účetními předpisy, a za takový vnitřní kontrolní systém, který považuje za nezbytný pro sestavení účetní závěrky tak, aby neobsahovala významné (materiální) nesprávnosti způsobené podvodem nebo chybou.

Odpovědnost auditora

Naši odpovědnost je vyjádřit na základě našeho auditu výrok k této účetní závěrce. Audit jsme provedli v souladu se zákonem o auditorech, mezinárodními auditorskými standardy a souvisejícími aplikačními doložkami Komory auditorů České republiky. V souladu s těmito předpisy jsme povinni dodržovat etické požadavky a naplánovat a provést audit tak, abychom získali přiměřenou jistotu, že účetní závěrka neobsahuje významné (materiální) nesprávnosti.

Audit zahrnuje provedení auditorských postupů k získání důkazních informací o částkách a údajích zveřejněných v účetní závěrce. Výběr postupů závisí na úsudku auditora, zahrnujícím i vyhodnocení rizik významné (materiální) nesprávnosti údajů uvedených v účetní závěrce způsobené podvodem nebo chybou. Při vyhodnocování těchto rizik auditor posoudí vnitřní kontrolní systém relevantní pro sestavení účetní závěrky podávající věrný a poctivý obraz. Cílem tohoto posouzení je navrhnout vhodné auditorské postupy, nikoli vyjádřit se k účinnosti vnitřního kontrolního systému účetní jednotky. Audit též zahrnuje posouzení vhodnosti použitých účetních metod, přiměřenosti účetních odhadů provedených vedením i posouzení celkové prezentace účetní závěrky.

Jsmo přesvědčeni, že důkazní informace, které jsme získali, poskytují dostatečný a vhodný základ pro vyjádření našeho výroku.
